Providing projectors in every classroom and
Management should allow the students to take electronics like laptop, tabs etc.. Which are useful for studies....

* Other than studies management should stop collecting cheap fines from students like ₹10 , ₹20

Have to improve by teaching the students out of the box. They should teach practically. Encourage them in various poster presentation and other activities and those to be conducted in college also. Conduct events in college and encourage the students who are interested. Not only academics wise they should improve in co-curricular activities. Should engage the students in various other opportunities and also should be fair with everyone. Should have any clashes between them. Should understand what are the students feeling about them and also be able to improve facilities in the college. I would also say that faculty have to improve their communication skills when they are talking with students.

It would be a lot more helpful if the institution employees people based on the experience and their scope in the particular subject, cause when it's not the case even if the employer try and explain it would lack the general details of the subject. And request to inform students before changing faculty,give a demo and consider their feeling on having a new teacher.

It would be better if the management consider students reviews more often. Among all the faculty there are only few faculties that deliver the content up to the mark. The main issue we have been facing now-a-days is frequent change of faculty. It would be more helpful for the students if the management employees people who has experience in teaching and in subject. Before changing of faculty for any subject give demo for the respective class and consider students reviews. If any inconvenience is reported against the subject or faculty consider them. I hope these minor issues will be considered by the management for the betterment of students .

It should be improved a lot.

We need to be in digitalization, not making the college like old school.

Facilities should be more like more projectors for every class, updated computers (windows 11) and allowing us to use any digital devices in the classroom in the absence of faculty.

Activities should be improved.

Thank you for this opportunity.

Hope you will consider this.
